

Finance Data Analytics Solution

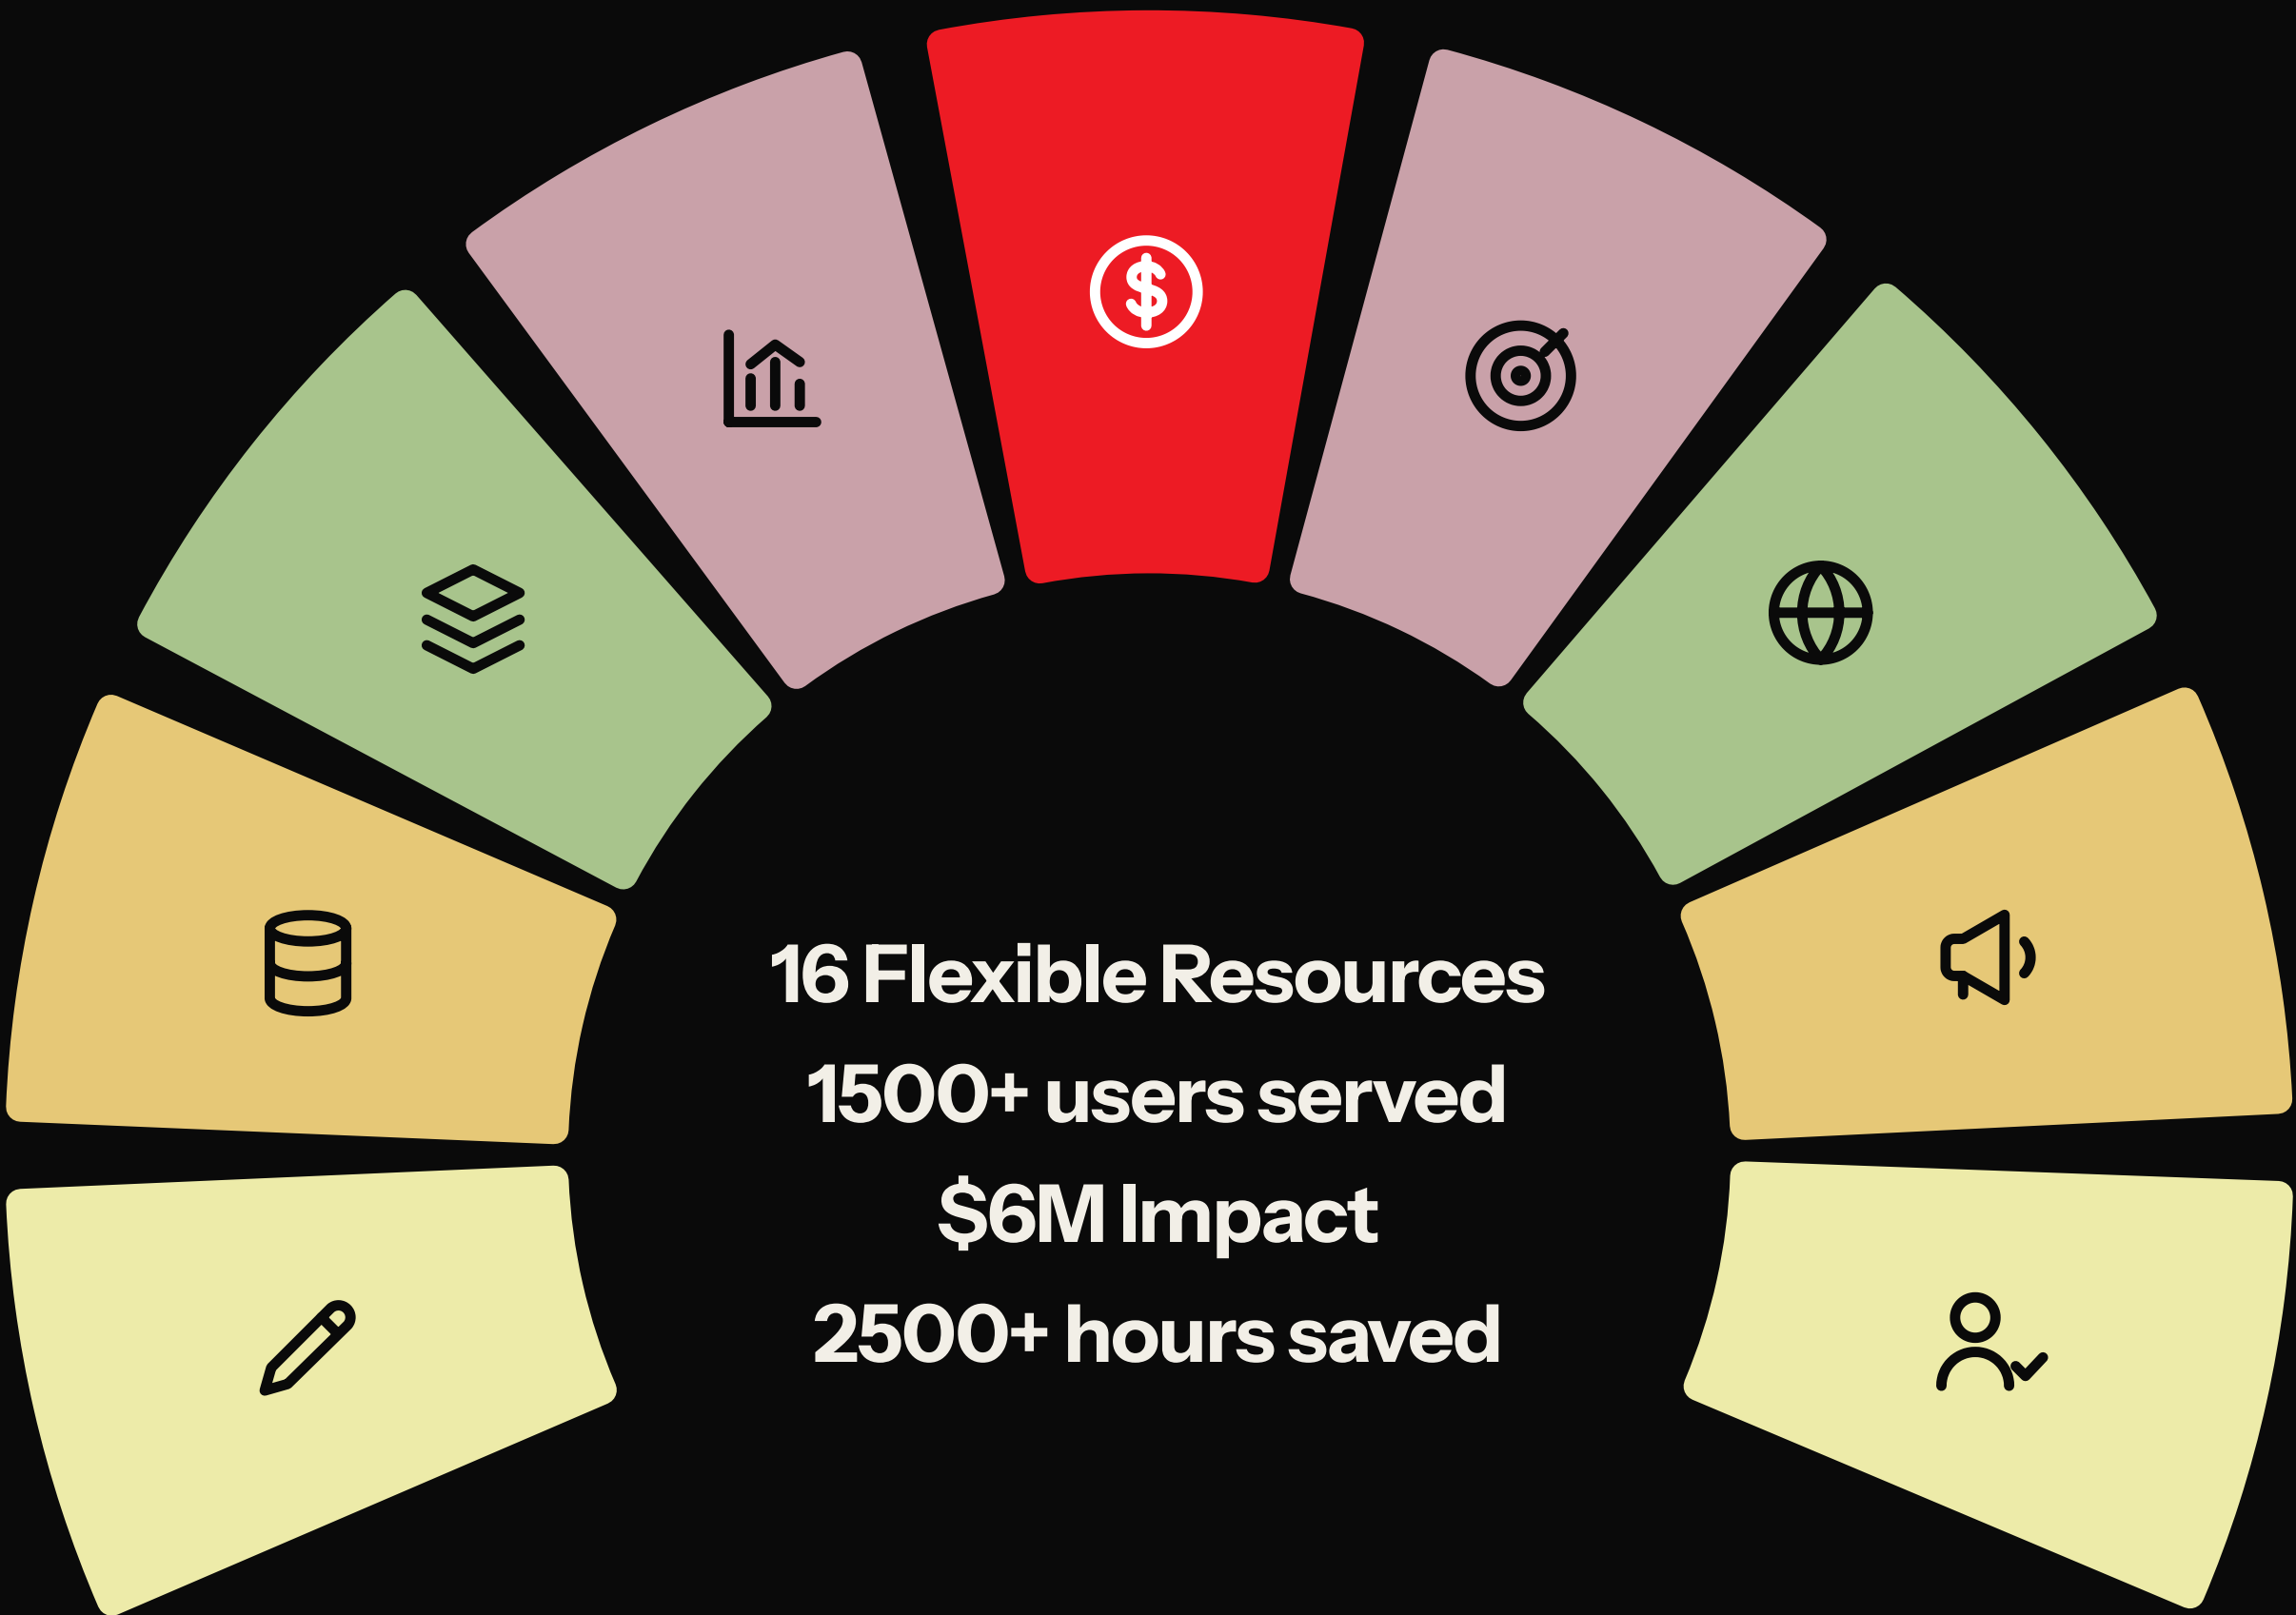

16
FLEXIBLE RESOURCES

1500+
USERS SERVED

\$6M
FINANCIAL IMPACT

2500+
HOURS SAVED IN 2025

Executing the FP&A Digital roadmap through a jointly managed sprint model — delivering **descriptive, diagnostic and predictive solutions** across Enterprise 360, ABP, LRP, GPIE automation and VPM, scaling technical execution capacity without expanding the core headcount footprint.

NINE WORKSTREAMS · ONE DELIVERY ENGINE

01

CashFlow Stewardship

Visibility into weighted-average days to pay and paid-on-time reporting.

\$73M opportunity · 1% ≈ \$730K

03

Bottler Behavior — Concentrate IQ

An agentic forecasting model predicting bottler behaviour.

Fewer stock-outs

05

Sustainability Enterprise Insights

Visibility into \$200M sustainability and CPS spend; backs board disclosures.

\$200M visibility

07

Risk & Opportunity Automation

Automated R&O reporting, eliminating repetitive manual work for FP&A.

Repetitive work eliminated

09

DAR at a Glimpse

Centralised hub — lowers key-person risk, speeds onboarding.

Centralised hub

02

Marketing & Finance Analytics

Horizon 1 complete; Horizon 2 and AI Narratives in progress.

Est. 14 FTE savings by 2027

04

AI Product Lifecycle Tool

AI-centric product management, from ideation through production deployment.

End-to-end lifecycle

06

FP&A Suite Enhancements

Key upgrades across Enterprise 360, ABP, LRP, GPIE automation and VPM.

E360 · ABP · LRP · GPIE · VPM

08

DAR Rebranding

New brand suite — presentation assets, wireframes and prototypes.

Reusable DAR assets

2027 Roadmap: from AI generated insight to AI recommended action
