

Finance Data Analytics Solution

A flexible team of **16 resources** accelerating data, analytics and reporting delivery across the company — executing the FP&A Digital roadmap through a jointly managed sprint model.

Descriptive, diagnostic and predictive solutions, including key enhancements to Enterprise 360, ABP, LRP, GPIE automation and VPM — scaling technical execution capacity without expanding the core headcount footprint.

NINE WORKSTREAMS · ONE DELIVERY ENGINE

● **CashFlow Stewardship**

ONGOING

Visibility into weighted-average days to pay and paid-on-time reporting.

\$73M opportunity · 1% ≈ \$730K

● **AI Product Lifecycle Tool**
